- ii) The Companies considered in the consolidated financial statements are:

Name of the Company	Country of incorporation	Percentage of ownership interest as at		Financial year ends on
		31.03.15	31.03.14

These Financial Statements have been prepared to comply in all material respects with the Accounting Standards (‘AS’) specified under Section 133 of the Companies Act 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, other pronouncements of the Institute of Chartered Accountants of India and relevant applicable provisions of the Companies Act, 1956 and Companies Act, 2013.

These Consolidated Financial Statements are, in so far as they relate to amounts included in respect of Subsidiary company in the audited financial statements, prepared for consolidation in accordance with the requirements of Accounting Standard - 21.

- iii) The financial statements are prepared in accordance with the historical cost convention and the accrual basis of accounting. Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the accounting policy hitherto in use.
- iv) All Assets and Liabilities have been classified as current or non-current as per the company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services provided and time between the rendering of services and their realization in cash and cash equivalents, the company has ascertained its operating cycle as less than 12 months for the purpose of current and non-current classification of assets and liabilities.

1.3 Significant Accounting Policies

i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/ materialised.

ii) Fixed Assets and Intangible Assets

- a) Fixed Assets are stated at their original cost less accumulated depreciation and impairments, if any.
- b) Intangible assets expected to provide future enduring economic benefits are recorded at the consideration paid for acquisition of such assets and are carried at cost of acquisition less accumulated amortisation and impairment, if any.

iii) Depreciation and Amortization

- a) Depreciation on tangible assets is provided on Straight Line Method ('SLM'), which reflects the management's estimate of the useful lives of the respective fixed assets. Pursuant to the enactment of the Companies Act, 2013, the company has, effective 1st April 2014, reviewed and revised the useful life of its respective fixed assets and such useful lives are equal to the corresponding useful life prescribed in Part C of Schedule II to Companies Act, 2013.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

v) Revenue Recognition

- a) Income from broking activities and transactions in respect of dealing in shares and securities are recognised on the date of settlement on the respective stock exchange.
Income from depositary and other services is recognized when the right to receive the same is established.
- b) Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.
- c) Dividend income is recognized when the Company's right to receive dividend is established.
- d) All other income are accounted for on accrual basis.

vi) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

Re-imbusement expected in respect of expenditure to settle a provision is recognized only when it is virtually certain that the re-imbusement will be received.

A Contingent Asset is not recognized in the Accounts.

vii) Impairment of Assets

An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in previous accounting period is reversed if there has been a change in the estimate of recoverable amount.

viii) Foreign Currency Transactions

Transactions in Foreign currency are initially recorded at the exchange rate at which the transaction is carried out.

ix) Employee Benefits

a) Define contribution plan
